

Maison Aveline

Bistro & living spaces — an imagined story

A place to gather.
A way of life.

At the table, take your time.

A welcoming table, warm materials and the pleasure of being together. Maison Aveline imagines a bistro shaped by hospitality, from the first coffee to the last conversation.

Good stories begin with a meeting.

The home extends the experience.

Beyond the table, a more intimate world: reading, resting and welcoming friends. The concept brings the bistro and the home together while keeping their uses distinct.

Light sets the tone.

Natural shades, a touch of greenery and spaces with room to breathe.
A setting for simple moments: a pause, a stay or an evening shared.

Maison Aveline

One place. Many possibilities.

Welcome. Stay. Gather. Three aspirations within a gentle, coherent identity. This place is imaginary; the pictures suggest its atmosphere.

Good stories begin with a meeting.
